ACCOMMODATIONS:

- **Accommodation Rates are per room per night.**
 - The "DBL" column refers to a room for two (2) adults, with twin or King/Queen Bed (unless otherwise specified).
 - The "TPL" column refers to a room with three (3) individual beds or Double room + additional bed (depending on the hotel configuration).
- **Accommodation rates for children and groups** must be quoted On Request (always).
- All the accommodations included in this document have been selected by LARES in order to provide a certain level or service. Any other accommodation in Uruguay not included in this document, can be quoted on requested.
- **Confirmed / Estimated Rates**

We all know how important is for our sales staff to have available rates in order to offer services. Some accommodations take longer than others to define their rates up-front. In order to provide a valid tool to be able to quote in advance, have defined "estimated rates" with those hotels who have not yet defined theirs for the upcoming future. These rates are referential and HAVE to be double-checked before booking.
- **Types and Categories**

We have defined/created a definition of types of accommodation and categories in order to provide you with a better idea of what clients can expect in each case.

"TYPE"

The following are definitions of the hotel "types" we have created in order to describe the style and experience the guest will find in each accommodation. Please, remember these definitions are not linked with a Level of Services the passenger will receive. They are a "definition of style" to help you understand what your client would expect.

• **Hotel**

The most standard and common definition. In general, this kind of accommodations are buildings with a big structure and several rooms.

• **Boutique Hotel**

Small Hotels, with a reduced number of rooms, generally more focus on design and personalized guest service.

• **Beach Hotel**

Hotels where the main experience is related to the beach and the relaxing laid-back atmosphere. It does not mean the building necessarily is on the beach, but definitely the main attraction of it is the seacoast.

• **Countryside Hotel**

Hotels located within the countryside usually linked with their natural environment. In some cases, the buildings will be traditional constructions, in other cases, contemporary buildings – The main characteristic is the location in the countryside

• **Touristic Ranch**

Locally known as "Estancias", many of these accommodations were formerly the house of the owners who lived and worked the land and who decided to open their doors to tourism. In most cases, the property does not produce or breed cattle anymore and have turned into touristic attractions.

• **Traditional Ranch**

It is one-step beyond the previous example – they are traditional estancias who have open their doors to tourism but still produce and breed cattle. They are very authentic and represent the countryside lifestyle.

"CATEGORY"

It refers to the level of service the passenger can expect of the accommodation. In order of the categories is described from the most exclusive and relevant services, to the more standard service.

• **Luxury**

Top-notch service and the best infrastructure of the country in terms of accommodation. They offer all the services a 5 star hotel requires.

• **Premium Deluxe**

Also high quality service but used for more standard/ corporate accommodations.

• **Deluxe**

This category shows high performance, focusing the service on guest preferences. They might not offer all services like Spa, Restaurant, gym.

• **First Class**

Very good service, performing the international standards of service with an optimal price. This range of accommodation has, in general, the best best relationship between service and price.

• **Tourist Superior**

One step over the best-price option, in this category the guest have a good service with a good rate.

• **Tourist**

It is an option for those who are looking for an acceptable and comfortable service with the best price possible.

All rates contained in this document are subject to change without prior notice, due to Sanitary Situations, Operative Conditions, Government Regulations, or any other unexpected cause.
